Another Exciting First for MSM: Theater in the Round

OKLAHOMA!, Rodgers and Hammerstein’s first collaboration, is considered their most innovative, having set the standards and established the rules of musical theatre still being followed today. It is only fitting that MSM will be performing this classic show in a new and different way: in the round.

A special stage at McKinney’s historic Church Street Auditorium will be in the center of the venue, with audience members seated around the actors. As always, we will have live music, but the musicians will be on their own stage, instead of in a pit. You’ll finally get to see our musicians as well as our actors!

According to Director Kevyn Robertson, “We are thrilled to be bringing this immersive theater experience to our audiences. The in-the-round configuration is a perfect fit for a high-energy production like OKLAHOMA! Our fans are in for a real treat!”
